Areas of Expertise

*Central nervous system
Integrative neurophysiology
Autonomic nervous system
Sensory systems, pain
Synaptic transmission
Neuro-muscular function
Cellular neurophysiology
Instruments/techniques*

*Kidney, electrolytes, body fluids
Gastrointestinal function
Epithelial transport, cell volume
Endocrinology
Ion channels, transporters
Acid-base regulation
Instruments/techniques*

*Cell and molecular physiology
Signal transduction
Ion channels, transporters
Function of the nucleus
Exocrine glands
Instruments/techniques*

*Cardiovascular system, electrophysiology,
haemodynamics
Lymphatic system, blood
Lung function, respiration, acid-base regulation
Exercise, temperature regulation
Environmental adaption, biorhythms
Skeletal muscle
Ion channels
Smooth muscle
Instruments/techniques*
